

# Parent Testimonial

*Chiara D - Discovery Mind Primary School*

“Over the course of six years, my son has flourished under the guidance of DMPS great and caring teachers and their genuine dedication. They go above and beyond to create a nurturing environment where every child feels valued and supported.

I cannot speak highly enough of the principal Ms Kanthan, who exemplifies exceptional leadership qualities. Her professionalism and commitment to the students' well-being are evident in every aspect of the school's operations.

The smaller student body allows for individualized attention, ensuring that each child receives the care and support they need and creating a sense of belonging that is invaluable in their formative years.

I'm extremely happy with the school curriculum that is an example of modernity, staying up-to-date with the latest educational advancements. Cambridge International Curriculum provides students with the skills and knowledge necessary to seamlessly transition to an international secondary school after completing their diploma.

My son's journey with this school has been truly transformative, and I wholeheartedly recommend it to any parent seeking an extraordinary and happy educational experience for their child. ”
