

Parent Testimonial

Sanch Liyanage - Discovery Mind Primary School

As a parent, choosing the right school for our children is one of our most important decisions. I am so grateful we decided on DMPS for my son's primary education.

I cannot thank the school's principal and the dedicated teachers enough for their support and close guidance to my son. They have nurtured him not only academically but also emotionally and socially. I have seen my son grow and flourish under their care and guidance.

One of the things that impressed me the most about DMPS is the preparation they provide for their students for secondary education. They not only focus on academic excellence but also equip the students with practical skills and knowledge that will be useful in the future. I am confident that my son has a strong foundation thanks to the school's curriculum and teaching methods.

Moreover, I appreciate how the school focuses on developing all-round students. From academics to sports, arts, and other extracurricular activities, the school provides a holistic education that has helped my son discover his strengths and interests. I am proud to see him excel not just in academics but also in various other activities.

Lastly, I want to mention how much my son loves the school and the teachers. He was so attached to the school that he was reluctant to leave when it was time for us to migrate. It is a testament to the warm and nurturing environment created by the school and its teachers.

I wholeheartedly recommend DMPS to any parent looking for a nurturing and comprehensive education for their child. Our experience at DMPS has been nothing short of amazing, and I am confident that it will continue to impact his life in the years to come positively. Thank you again to the school and all its staff for their excellent work. ””
